Final drive ratio	4.333	4.406	4.052	4.042	

GEN-2 ecoLogic models with automatic transmission will be registered by PCUKL prior to conversion.

*As LPG expands, max. fill-level is around 80% of total tank size capacity. #Proton GEN-2 ecoLogic models qualify for an alternative fuel discount on road tax.

†Dependent on driving style, road and traffic conditions, environmental influences, the state of the vehicle and equipment, in practice fuel consumption figures can arise which may deviate from the figures shown.

§This is the weight of the vehicle with no fuel and no occupants. The weight may be increased when special equipment is added to the vehicle whereby the load and maximum speed are reduced accordingly.
